ABOUT ME

I am a Software Engineering student seeking an internship opportunity in Frontend Development. With strong programming skills, a keen aesthetic sense, and UI/UX design experience using Figma, I am capable of creating intuitive and user-friendly interfaces. Additionally, I have a basic understanding of Backend development, which allows me to collaborate effectively on Fullstack projects.

CAREER OBJECTIVE

In the short term, my goal is to find an internship opportunity to apply and develop my Frontend skills, gain practical experience, and improve my teamwork abilities. In the long term, I aim to become a professional Frontend Developer and further develop my skills to eventually transition into a Fullstack Developer. I am eager to contribute wholeheartedly to the company by actively participating in real-world projects, offering innovative ideas, and striving to deliver high-quality products while helping the team grow stronger.
